

RESUME OF

NORDIN SCHOENMAKERS

I am a calm young man of 22 years old that's eager to learn and grow. Over the past 3 years, I have been teaching myself programming at home. During that time, I completed CS50x, built several small projects, one project using an older tech stack, and one project using a modern, commonly used stack.

Curious about my projects? Visit www.nordinsprojects.site to see my portfolio and projects in action.
